

# QHSE POLICY

**CANADIAN EMIRATES WESTERN ENGINEERING CO. L.L.C.** is steadfast to be a regional leader in Electrical Submersible Pumps (ESP) & Associated Services to Petroleum Sector. We have SIX QHSE POLICY PILLARS on which our organization is structured to achieve our QHSE EXCELLENCE

## RISK MANAGEMENT

We will MANAGE the QHSE risks associated with our operation for the interest of stakeholders, customers and contractors by designing, operating and maintaining business processes in accordance to the established QHSE policies and procedures

## PROTECTION AND PREVENTION

We will be contributing to maximum extent possible toward protection of environment, prevention of pollution and provision of safe working condition to our employees and business associates to prevent the work related injuries and ill health

## PARTICIPATION & COMMUNICATION

We do believe in consultative management approach and two way communication with our all stakeholders, interested parties, employees, regulatory authorities, customers and external providers for effective QHSE Management System implementation.

## COMPLIANCE

Our QHSE Management System conforms and will be conforming to all national, regional and applicable international requirements as well as mutually agreed customer requirements

## ETHICAL & RESPONSIBLE BUSINESS OPERATION

Wherever we operate in the Middle East and Africa (MEA) Region, we do believe in doing the business ethically, honestly, with responsibility and accountability. Our business values are based on the Code of Ethical Business Conduct, Corporate Good Governance and to be fair and transparent in every deal we do as a business. Our commitment to doing business the right way is part of what makes us an Ethical & Responsible Business Operator

## CONTINUAL IMPROVEMENT

We at **CANADIAN EMIRATES WESTERN ENGINEERING CO. L.L.C.** are committed to continually improve our QHSE Management System through risk and opportunities management, establishing objectives, targets, competence development, resource provision, analyses of data and time by time reviews of our performances

**ABDULAZIM KHALIL**
